

Environmental Scientist

PE Services is growing, and we are looking for qualified candidates who are ready to join our team! PE Services has provided civil engineering design and oversight in construction for over 25 years.

Throughout this time, PE Services has redefined several innovative methods of testing, verification, and documentation which have enabled our trusted partnerships to remain strong and continue to grow. We understand the need for speed of service as well as the need for availability, and we are excited for the right people to join our growing team.

Responsibilities:

- Directly interact with the client and project owner.
- Oversight of daily construction activities ensuring compliance is maintained.
- Temporary and permanent erosion control plan(s) oversight.
- Collecting and analyzing soil, air and water samples to determine the level and cause of environmental contamination.
- Develop solutions to control, fix, or prevent environmental problems.
- Understand and manage the NPDES permit program and stormwater pollution prevention plan and amendment process.
- Prepare necessary technical reports.
- Technical lead for the following activities:
 - Hazardous waste management and inspections
 - Environmental audits
- Develop and deliver education on environmental compliance.
- Performs other job-related duties as assigned.

Knowledge, Skills & Abilities:

- A BA / BS Degree in environmental science, environmental design and planning, or equivalent
- 4+ years of environmental compliance experience
- A strong safety focus and attention to detail
- A valid driver's license and good driving history
- Erosion and Stormwater Construction Site Management and/or Designer of SWPPP Certification
- Knowledge of and the ability to implement appropriate state and local regulatory requirements, contractual requirements, and standards.
- Skills to interpret engineering plans and specifications.
- Working knowledge and collaborative approach to working with local regulators.
- Detail-oriented with the ability to multi-task and effectively manage time and project resources.

As a proven, established, Women-Owned Small Business (WOSB), Disadvantaged Business Enterprise (DBE), and Targeted Group Business Program (TGB); PE Services offers professionals a dynamic work environment and a competitive compensation package. This compensation package includes medical/RX, dental, life, disability, and other valuable voluntary options. We believe in our people and we have created a unique family-like culture of continuous growth and development along with building a workplace with a strong focus on diversity, inclusion, and professionalism on each project we complete.
