

## **Job Posting for Construction Engineer/Inspector**

**Position Title:** Construction Engineer/Inspector

**Location:** St. Louis Park, MN

**Company:** PE Services

### **Position Overview:**

PE Services is seeking a dynamic, results-driven Construction Engineer/Inspector to elevate our projects and join our forward-thinking team. For nearly three decades, we've led the field in engineering excellence, setting the bar for quality and compliance across every project. In this role, you'll play a pivotal part in optimizing construction workflows with data-driven inspections, advanced quality control, and rigorous safety standards. We're looking for a professional with a strong foundation in Civil Engineering, Construction Management, or field-tested project leadership who thrives on leveraging modern tools and innovative approaches to oversee complex, high-stakes projects. At PE Services, you'll be empowered to lead with integrity and make a measurable impact from day one.

### **Key Responsibilities:**

#### *Project Oversight and Field Inspection:*

- Conduct thorough on-site inspections to verify compliance with project specifications, safety standards, and regulatory requirements.
- Document and report daily construction activities, tracking quality, progress, and adherence to project plans.
- Inspect all phases of construction, such as underground utility installation, grading and base operations, concrete and bituminous paving, and bridge construction and rehabilitation, to ensure contract documents are adhered to, and quality is achieved.
- Collaborate with project managers, contractors, and engineering teams to address and resolve issues promptly.

#### *Quality Control and Compliance:*

- Conduct quality control checks and maintain accurate records of inspections, test results, and project documentation.
- Review and interpret engineering plans, ensuring that construction aligns with design and regulatory standards.
- Prepare and distribute compliance documentation as required by project and client specifications.

#### *Additional Duties:*

- Provide additional project support and perform other assigned tasks as needed to help achieve client and project objectives.

**Main Qualities Needed:***Technical and Professional Expertise:*

- Bachelor's degree in Civil Engineering, Construction Management, or a related field, or 10+ years of relevant field experience in construction inspection.
- Valid driver's license with a clean driving record.
- In-depth knowledge of construction standards, inspection techniques, and regulatory requirements.
- Proficient in civil engineering technology and terminology, materials testing procedures, and Microsoft Office programs.
- Strong analytical and problem-solving skills, with a proactive approach to resolving project challenges.

*Skills and Abilities:*

- Excellent communication and interpersonal skills for effective collaboration with clients, contractors, team members, and the public.
- High attention to detail, organizational skills, and a commitment to quality and safety.

**Why Join Us?**

- Advance your career in a hands-on role with opportunities for professional growth in a collaborative and supportive environment.
- Be part of a reputable company that values diversity and fosters a culture of teamwork and mutual respect.
- Contribute to a workplace that emphasizes quality, integrity, and continuous improvement.
- Enjoy a comprehensive benefits package, including medical/RX, dental, life, disability, and additional voluntary benefits.

**How to Apply:**

Interested candidates should send their resume and cover letter to [HR@peservicesmn.com](mailto:HR@peservicesmn.com). Please include "Construction Engineer/Inspector" in the subject line.

PE Services is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
